Re: DISCLAIMER:

We hope you find this content useful.

Please remember, though, that it's intended as general information only.

It's not legal advice.

Introduction

Please read the following policy carefully to understand how and why this website uses your internet protocol address (hereinafter, the "IP Address") and cookies. You must give your express consent in order to access and browse the website <https://www.wkw.group> ("the Website"). If you do not accept the provisions of this Cookie Policy, you must exit the Website immediately.

Last Update: May 23th, 2022

(Hereinafter, the "**Cookie Policy**")

Wellcome Key Worldwide LTD ("**We**", "**Us**", "**Our**", or "**WKW group**") (with company registration Company number 12588390) collects two types of information about you resulting from your use of the Website: (i) personal information, including your name and e-mail address and (ii) aggregate information, this being generated from the practices which We have in place about Cookies and the IP Address of its users.

Our practices regarding the collection and processing of such personal information are set out in Our Privacy Policy.

Correspondingly, the practices which We have in place regarding the generation of aggregate information (as mentioned above) are described herein in Our Cookie Policy. In order to be able to browse and use the Website, as well as the online platform to which you, the user, are connected by means of the Website, you must expressly agree to the practices set out herein.

Part 1: #IP Address

What Happens When You Visit the Website? Whenever you connect to the internet or use an always-on connection, such as broadband or ADSL, when you boot up or restart your computer, you are automatically assigned a unique identifying number known as an IP Address. This IP Address, which contains information regarding the location of your computer on the internet (your country of origin) and the name of your internet service provider ("ISP"), is automatically logged by Our Website.

What is an IP Address? When you first started your internet session (i.e., your computer connected to the internet), your computer was automatically assigned a unique number (normally in the region of 9 or 10 decimal numbers), known as an IP Address. This is your computer's individual address on the internet. Without such an IP Address, websites would not be able to deliver their content to you as they would not be able to find your computer on the internet. Since each time you disconnect and reconnect to the internet, a new IP Address is automatically assigned to your computer. IP Addresses are not inherently capable of identifying you as an individual (at least, themselves).

An IP Address does, however, contain information regarding the location of your computer on the internet (your country) and the name of your ISP.

How do We collect your IP Address? Each time you visit a page on Our Website, your computer sends a message to Our Website asking for the content. This message sent by your computer also encloses your IP Address as a form of "return address" so that the Website may find your computer in order to send it the requested content. Our web server automatically logs all these messages.

What do We do with your IP Address? When We log your IP Address, the data collected is grouped up with the other logged IP Addresses in order to provide Us with the statistics on the geographic location of visitors to Our Website, how long they stay on Our Website, which are the most viewed pages and for other statistical reasons.

We gather your IP address automatically and store it in log files. These files also contain information relating to your browser type, ISP, operating system, date/time stamp, clickstream data and the files viewed on Our Website. Collecting this type of information allows Us to generate aggregate information for the purposes of Our Website, including in terms of overall user trends and activities online (such as the number of unique visitors, pages accessed most frequently or the search terms entered). It also allows Us to administer Our Website, diagnose potential server problems, analyse visitor trends and statistics, and generally hold Us to provide you with a better internet experience. IP Addresses are not stored for longer than necessary for the above-stated purposes.

Part 2: #Cookies

Information about Our use of cookies

Our website uses cookies to distinguish from other users of Our Website. They allow Us to analyse trends and administer the Website to help Us to provide you with a good experience when you browse Our Website and to improve it at the same time.

A cookie is a small file of letters and numbers that We store on your browser or your computer's hard drive, if you agree. Cookies contain information that is transferred to your computer's hard drive. A cookie enables the website to remember users that have already visited. Without a cookie, every time you open a new web page, the server where that page is stored will treat you like a completely new visitor. Cookies allow Us to remember your custom preferences, such as your language preference and allow us to complete tasks without re-entering your information when browsing to make browsing on Our Website easier.

We use the following cookies:

- **Strictly necessary cookies:**

These are cookies required for the website's optimal performance.

- **Content customisation cookies:**

The cookies store your country's location, which is used for certain features offered within the Website. This helps Us improve the way the Website works, for example, by ensuring that users find what they are looking for easily.

- **Tracking cookies:**

The cookies are used for the purpose of marketing campaign tracking. These cookies record your visit to the Website, the pages you have visited and the links you have followed. We will use this information to make the Website and the advertising displayed on it more relevant to your interests. We may also share this information with third parties for this purpose.

- **Third-party cookies:**

These cookies allow Our Website to interact with different websites, which may provide helpful information. These websites can be accessed from the links on the Website.

You can find more information about the individual cookies We use and the purposes which We use them in the table below:

Name	File(s)	Purpose	Lifespan	Opt-out
Strictly necessary				
Session	october_session	The cookie is used to cache generated information and speed up the Website.	It expires when the browser session is closed.	No
	ARRAffinitySameSite ARRAffinity	The cookie is used to keep the state between servers.	It expires when the browser session is closed.	No
	Cookie type	The cookies are used to determine if the user accepts cookies and which types of cookies he allows to use.	Expires in 730 days.	No
Content Customization				
Location	Location code locations	The cookies are used to store your country, which is used for certain features offered within the Website.	It expires when the browser session is closed.	Yes
	PHPSESSIONID	This cookie references a unique session for a current browsing session. No personal data is stored in it.	It expires when the browser session is closed.	Yes
Tracking				
Marketing Campaigns	tracker[ad] tracker[exp] tracker[url] His tracker _gidhp	The cookies are used for the purpose of marketing campaign tracking.	Expires after 30 days. Expires after one day.	Yes
Third-Party Cookies				
Analytics	_ga _gat_UA-786247-11 _gid 1P_JAR ANID CGIC CGIC CONSENT DV _gcl_au	These are third party cookies placed by Google that allow Us to use the Google Analytics and AdSense service.	Determined by the third party.	Yes
	MUID	These are third party cookies placed by Microsoft used for the Clarity service.	Determined by the third party.	Yes
	ai_session ai_user	These are third party cookies placed by Microsoft used for error logging and technical telemetry.	Determined by the third party.	Yes

Revision date: April 29th, 2022. | Last Update: May 23th, 2022

Please note that third parties (including advertising networks and providers of external services like web traffic analysis services) may also use cookies, over which We have no control. These cookies are likely to be analytical or targeting cookies.

You can block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including strictly necessary Cookies), you may not be able to access all or parts of Our Website. Moreover, some parts of the Website may not function properly if you choose not to accept cookies.

You can control the use of cookies at the individual browser level. If you reject cookies, you may still use Our Website, but your ability to use some features or areas of Our Website may be limited. Many browsers allow you to browse privately, which automatically erases cookies after visiting a site.

The following is a list of the most common browsers and the way in which you can activate private browsing:

- Internet Explorer 8 and later versions: In private
- Safari 2 and later versions: Private Navigation/Browsing
- Firefox 3.5 and later versions: Private Navigation/Browsing
- Google Chrome 10 and later versions: Incognito
- Further information on cookies can be found on various sites such as www.allaboutcookies.org

We appreciate your time.
Respectfully, sincerely yours,

The team of
WELLCOME KEY WORLDWIDE
